INTERESTS

- Full-Stack Web Development
- Modern JavaScript & TypeScript Ecosystems
- Custom Apps & WordPress-Based Sites
- Real-World Software Projects

01 Profile

Junior Full-Stack Developer with hands-on experience across backend and frontend web development, skilled in building applications with Node.js, TypeScript, Laravel, React, MySQL, and PostgreSQL. Also brings practical experience with WordPress, WooCommerce, and Elementor — including website customization, frontend implementation, and e-commerce development. Currently pursuing a Bachelor's degree in Computer Engineering while continuously sharpening practical skills through personal projects and real-world development work.

02 Experience

Software Development Intern

1.5 Months

Azar Mehr Afarin Company — Internship

- Worked in a professional software development environment on real project tasks.
- Gained hands-on experience across backend and frontend development concepts.
- Strengthened understanding of software development workflows and team-based collaboration.
- Applied programming knowledge directly to real-world development tasks.

03 Projects

Workchi — Online Services Platform

A full-stack web platform for managing digital and printing service orders, covering both admin and user workflows.

- User authentication and authorization with role-based admin / user workflows.
- Dynamic order status, pricing, and payment management.
- File upload handling and a fully RESTful API architecture.

STACK Node.js · Express.js · React · TypeScript · MySQL · Sequelize · JWT

WordPress & WooCommerce Projects

Development and customization of e-commerce and business websites using Elementor and WooCommerce.

- WooCommerce configuration, product/category management, and checkout customization.
- Custom page design with Elementor, responsive layouts, and custom CSS.
- Header/footer customization and basic on-page SEO optimization.

04 Education

B.Sc. in Computer Engineering

Feb 2023 – Present

Bozorgmehr University of Qaen

Studying software development, programming, databases, and computer engineering fundamentals.
